**Important Note on School of Education Financial Aid:**

*Every student who attends the MAT/MST program receives financial aid from UGC in the form of reduced tuition. UGC's education course tuition is roughly 40% of the course cost of Union College undergraduate course tuition. In addition, the 3 internship courses carry NO tuition cost and the Field Experience course cost is minimal. Although the full MAT program involves 16 courses for 53,2 units (UGC courses are 3.33 units each), 4 courses (13.2 units carry a total tuition cost of less than \$300.)The vast majority of UGC's remaining education financial aid is allocated according to need, primarily for those students who can provide some work for the program. Limited unrestricted scholarships are available.*
