MEETING THE CHALLENGES OF STRATEGIC HUMAN RESOURCE MANAGEMENT

Corporations throughout the world realize the tremendous value that sound human resource strategies bring to their operations. Effective human resource management is of critical importance, considering the more complicated lifestyles of employees that necessitate job sharing and flex time, technological advances, demographic changes of the workforce (e.g., more women, minorities, and aging employees), and increased state and federal legislation that impacts the workplace. Human Resource professionals have evolved from the behind-the-scenes administrative role of the 20th century to active involvement in shaping corporate policy. Human Resource professionals are being challenged to build a competitive advantage for their employers through effective Human Resources Management.

The Certificate Program in Human Resource Management at Union Graduate College prepares students to meet these challenges.
